### DETAILED ACTION

This Official Action is in response to the Response filed 7/10/07. The only rejection now of record in this application is the below rejection which rejects new claims 26-29.

All other rejections of record are withdrawn in view of the amendments made in the response filed 7/10/07.

Claims 2, 3, 5, 12, 14, 21-25 are free of the prior art.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 26-29 are rejected under 35 U.S.C. 102(e) as being anticipated by

Douchette-Stamm et al [US 6,380,370].

Art Unit: 1635

Douchette-Stamm et al disclose a polypeptide from *S. epidermidis* (see SEQ ID NO: 5314 which has 99.9% homology to the instant SEQ ID NO:10. This same sequence has 100% identity over the regions defined by the instant claims.
